

Erasmus
Mundus

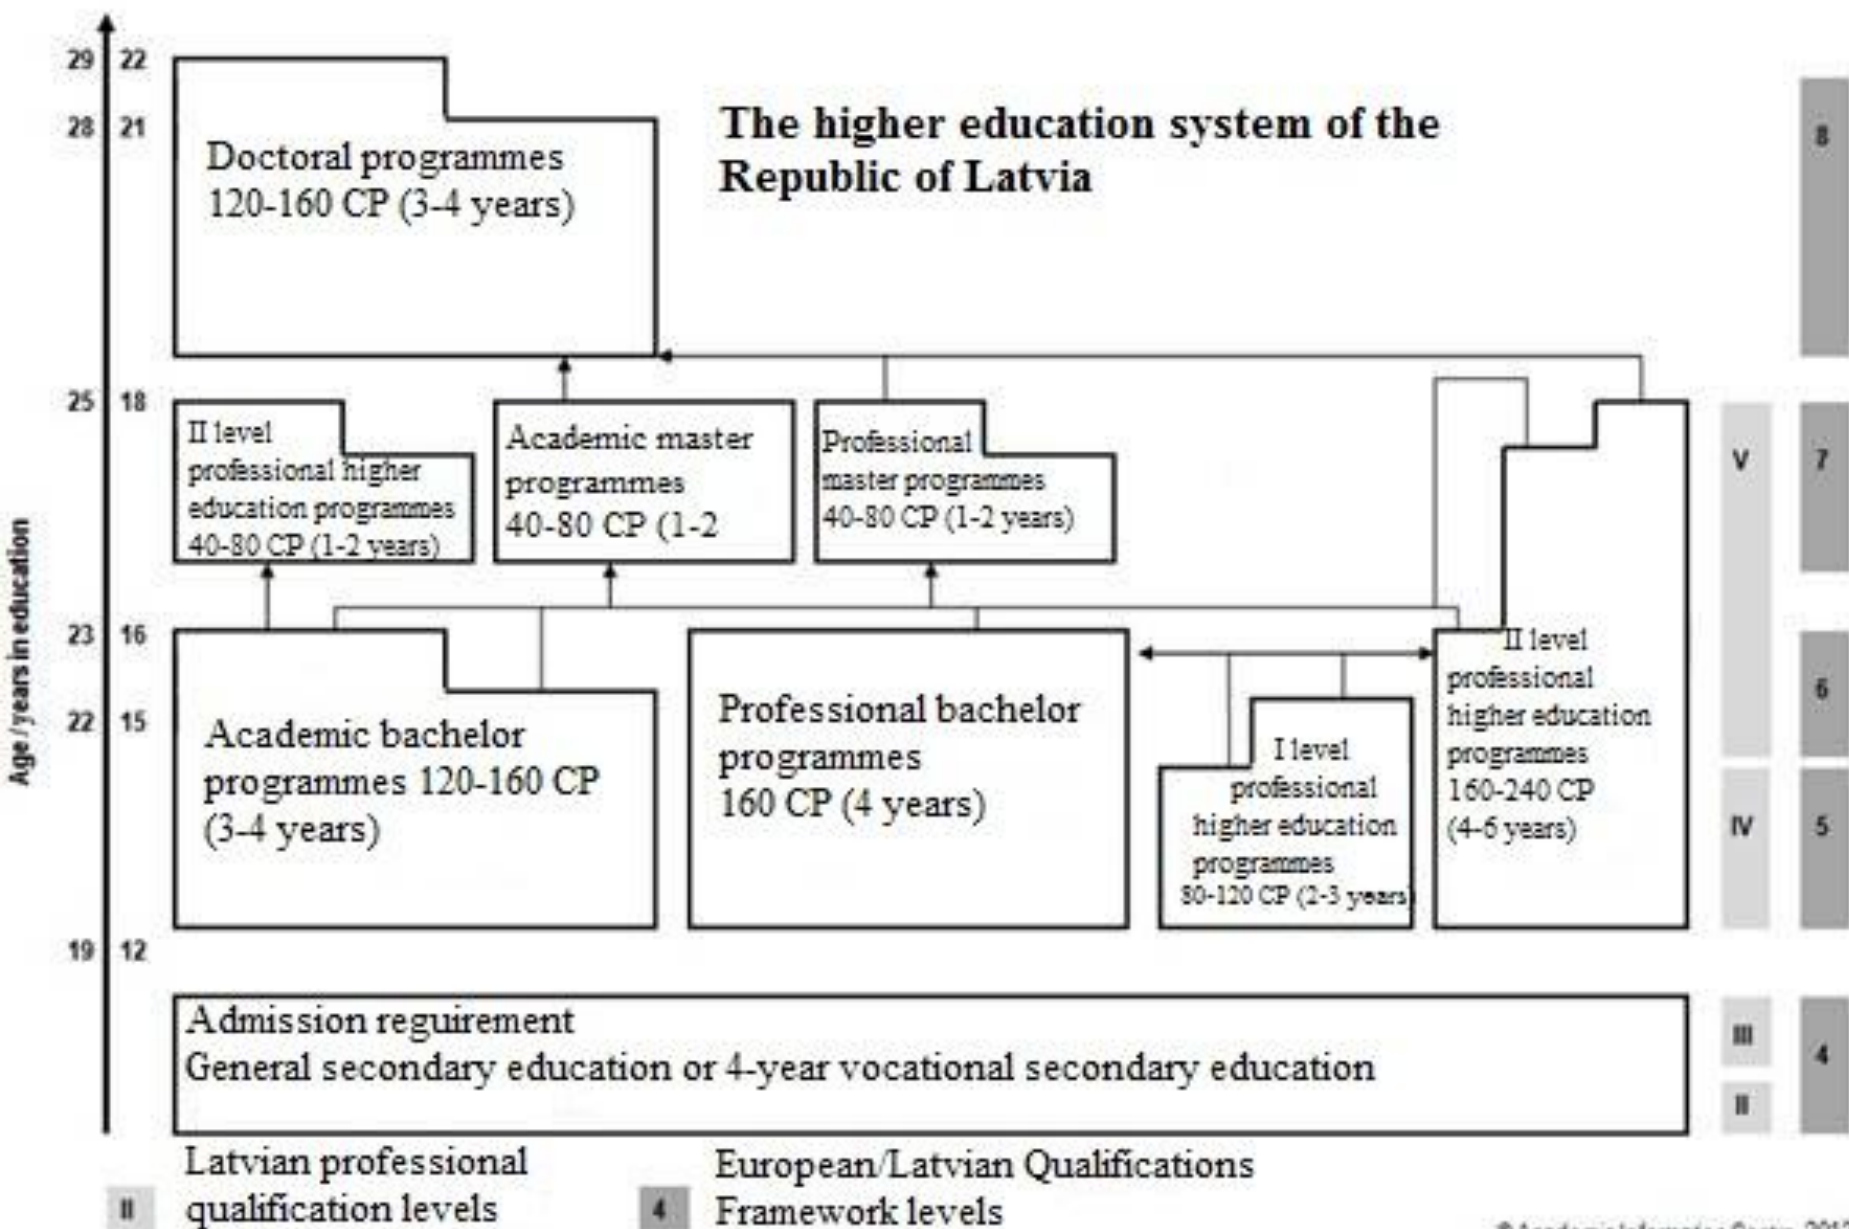

Riga Medical College of the University of Latvia

was founded in 1980 and at that time it was called Riga Medical School No. 5. In 2004, in compliance with Latvia's legislation, it was transformed into Riga Medical College. Later the College was restructured into Riga Medical College of the University of Latvia.

- ▶ Location: Riga, Hipokrata street 1, 5 min walking from Riga Eastern Clinical University Hospital
- ▶ Campus: Riga, Hipokrata street 1

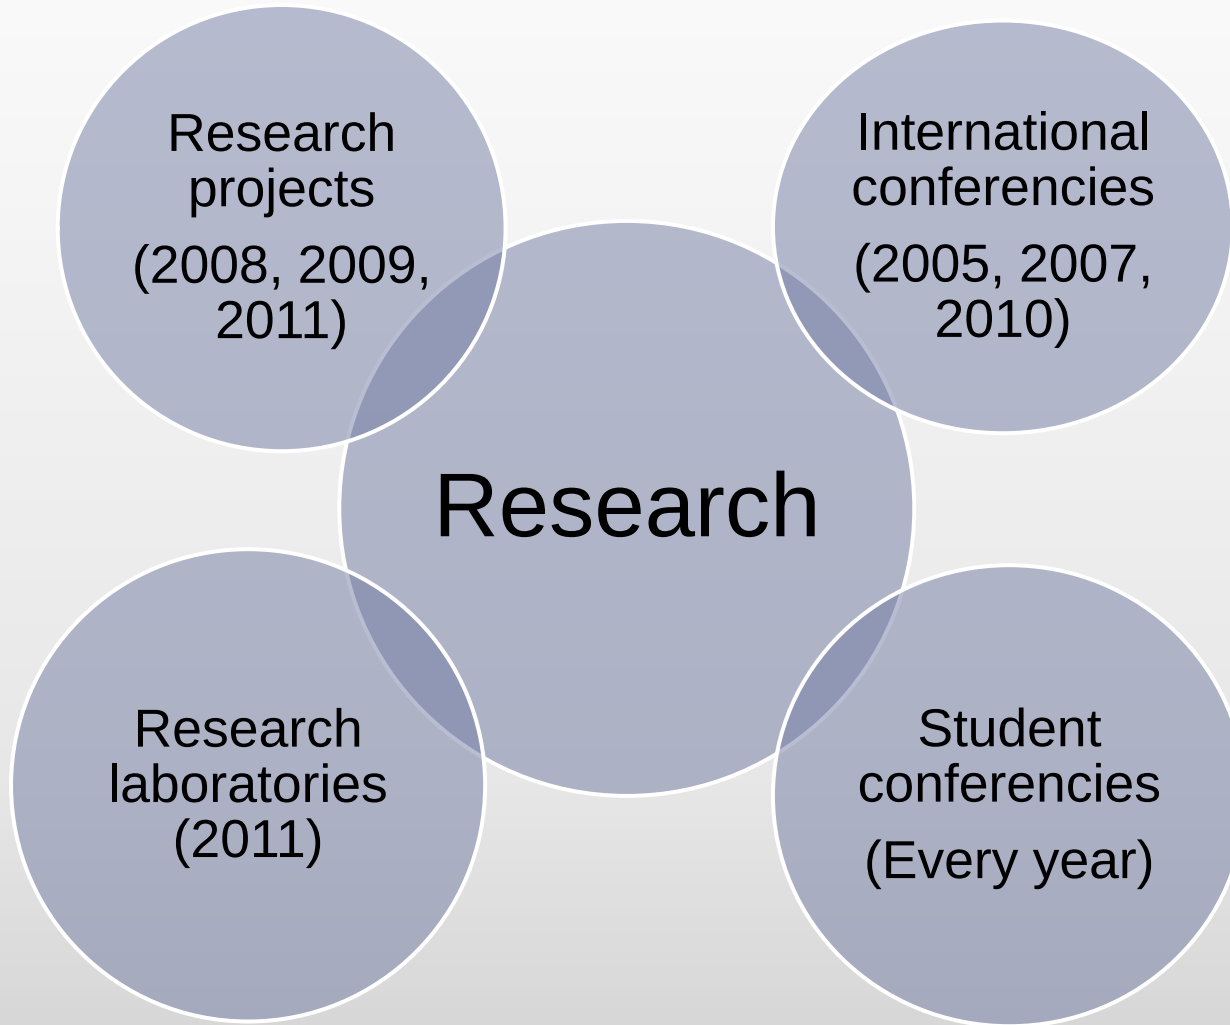

Study programs

- ▶ The College implements undergraduate education at the first level professional higher education (short cycle) study programmes in NURSING and in MEDICINE, that provides the whole range of knowledge, competences and skills relevant and appropriate for the present-day labour market and health care system.
- ▶ The graduates of the programme NURSING receive the fourth level professional qualification (5 level of European Qualifications Framework (henceforth – EQF)) of Nurse in one of the following areas – Nurse or Internal Medicine Nurse, Paediatric Nurse, Anaesthetist Nurse, Intensive/ Critical Care Nurse, Surgical Nurse or Outpatient Nurse.
- ▶ The graduates of the programme MEDICINE receive the fourth level professional qualification of Physician Assistant or Physician Assistant in Ambulatory Care or Physician Assistant in Emergency Care.
